

VINIA 240 SD with centre structure

Maximum freshness for self-service meat

The **VINIA convenience refrigerated island** is designed to help you subtly motivate your customers to make spontaneous purchase decisions. The sliding covers give full insight into the cabinet and ensure **ideal temperature conditions for self-service meat**. The **additional non-refrigerated space in the centre structure** can be used to increase sales from cross selling.

- + The **VINIA SD** is ideal for presenting fresh self-service meat thanks to its **sliding covers**.
- + Because the centre structure can be adapted to meet specific requirements, it can be used to **present related refrigerated and non-refrigerated products** (e.g. meat and sauces for barbecues).
- + **VINIA SD** is the ideal addition to other products from the **VINIA product family**. Its **special lighting with Me-atColor** makes your self-service meat look particularly appealing.
- + The **body can be customised** using various decors and materials. **Optional accessories** increase the visual appeal of **VINIA**.
- + The **environmentally-friendly refrigeration technology with R290** (propane) ensures future-proof operation.

Freshness. Our focus.

HAUSER

Your HAUSER solution for freshness

Transparent design, attractive goods display, energy-optimised refrigerated and deep-freezing cabinets and a comprehensive range of service have been guaranteeing freshness for almost seventy years: HAUSER is your reliable partner for refrigeration technology.

Founded in 1946 by Rudolf Hauser as a maintenance and installation service in Linz in Austria, the family-run business grows continuously. HAUSER manufactures its products using state-of-the-art methods at its two facilities located in Austria and the Czech Republic. Worldwide, 700 employees strive each day to provide you with individual solutions for freshness.

Everything from a single source

Planning, production and delivery of turnkey refrigeration units – HAUSER provides safety, reliability and service during the entire product life cycle. The top-quality products are tailored to fulfill your individual needs. The professional project management minimises your energy consumption and thus helps preserve the environment.

Broad spectrum of services

Our product portfolio includes refrigerated and deep-freezing cabinets, refrigeration technology and controls, cold-storage rooms and warehouses, and also a broad spectrum of services with 24-hour assistance and online temperature control. HAUSER guarantees optimal support around the clock with installation and service technicians close to your location.

Design, quality and energy efficiency

The team at our modern development laboratory is constantly working on innovations in the areas of goods display, transparency, ergonomics, function and
