

MERANIS IMM-XL05

The transparent space miracle /

The award-winning cabinet

Deep-freezing can be this transparent: The new **MERANIS** guarantees maximum visibility and an optimum presentation of goods at minimum energy consumption. Its low height also enables an open, modern store design and provides easier access to products.

- + A specially developed frame construction made of triple-pane thermo glass with Low-E coating and plastic spacers ensures **reduced heat conduction** and **improved insulation**.
- + The most technologically advanced energy-saving **DC axial compact fans** guarantee efficient operation and **prevent heat development** in the cold cabinet interior.
- + The **sophisticated air duct** ensures optimum air distribution and maximum temperature stability.
- + Thanks to its shallow design that still provides **maximum usable volume**, the cabinet can be delivered through any standard door.
- + The shop-around end can be used both for medium temperature and low temperature displays, **maximising the cabinet's versatility for seasonal loading**.
