

# HAUSER Connect Box

## The compact, environmentally-friendly condensing unit

HAUSER sells a lot of standardised refrigerated cabinets that are sold ready to plug in. To cover a wide range of customer requirements, we have also developed the **HAUSER Connect Box**. This is the first time HAUSER has created a compact condensing unit for standard commercial refrigerators with medium and low temperatures. It means that standard cabinets can be transformed into refrigerated cabinets that are ready to plug in. The Connect Box covers a wide cooling range from 0.4 kW to 11 kW for medium temperature refrigeration and 0.3 kW to 6 kW for deep freezing. The use of the **natural refrigerant CO<sub>2</sub>** ensures **sustainability** and optimal **energy efficiency**.

The frequency-controlled 2-stage hermetic compressor ensures good oil management and means that the same range can be used both for medium temperature and low temperature refrigerated cabinets. The units are cooled either with air or water as a factory standard; they can be installed outdoors. This also makes the HAUSER Connect Box the ideal solution for small stores or as a retrofit solution.

- + Ideal for **retrofitting** or **small stores**.
- + **Flexible installation** of the Connect Box.
- + **Plug and Play system** enables fast installation and commissioning.
- + **In-house brand** with decades of **experience**.
- + **Sustainability** thanks to **future-proof refrigerant CO<sub>2</sub>**.
- + **Casing** for indoor and outdoor installation.
- + Optional, flexible **drainage management** available - **ready to plug in**.

*Freshness. Our focus.*

# Your HAUSER solution for freshness

Transparent design, attractive goods display, energy-optimised refrigerated and deep-freezing cabinets and a comprehensive range of service have been guaranteeing freshness for almost seventy years: HAUSER is your reliable partner for refrigeration technology.

Founded in 1946 by Rudolf Hauser as a maintenance and installation service in Linz in Austria, the family-run business grows continuously. HAUSER manufactures its products using state-of-the-art methods at its two facilities located in Austria and the Czech Republic. Worldwide, 700 employees strive each day to provide you with individual solutions for freshness.

## Everything from a single source

Planning, production and delivery of turnkey refrigeration units – HAUSER provides safety, reliability and service during the entire product life cycle. The top-quality products are tailored to fulfill your individual needs. The professional project management minimises your energy consumption and thus helps preserve the environment.

## Broad spectrum of services

Our product portfolio includes refrigerated and deep-freezing cabinets, refrigeration technology and controls, cold-storage rooms and warehouses, and also a broad spectrum of services with 24-hour assistance and online temperature control. HAUSER guarantees optimal support around the clock with installation and service technicians close to your location.

## Design, quality and energy efficiency

The team at our modern development laboratory is constantly working on innovations in the areas of goods display, transparency, ergonomics, function and
